Chem-Tainer

has been producing plastic tanks for over 40 years here in the US. They have 10 factories spread out throughout the US with over 500,000 square feet dedicated to manufacturing. You will notice the pricing to the left that taller tanks cost more per gallon than lower profile tanks due to the wall thickness needed for taller tanks. These tanks have a 3 year warranty.

Prices are for tanks only. Below are options to complete your tank for rain water harvesting.

Rain Water Harvesting Accessory Kit—Use this collection of parts to complete your Chem-Tainer tank so it is ready to harvest rain water. Parts included are.

- 3/4" brass ball with standard hose threads to attach a garden hose for gravity draining.

- 2" to 3/4" reducer enables using above ball valve on lower 2" stock fitting.

- A 1-1/2" external fitting with an elbow at top of tank to be used as an overflow

- A basket strainer placed in smaller opening on lid to keep leaves out of water.

- An elastic material cover over basket strainer making it mosquito proof.

\$29.95

Tank Gauge-A simple design that lets you know the amount of water in your tank in terms of inches. It has a 100" range

\$34.95

Large 16" Basket Strainer—This basket strainer has a rigid plastic frame with stainless steel screen molded into it bottom to keep out mosquitoes and leaves

\$29.95.
